

Chapter I

Startup

Starting to use AIQ Data Transfer Utility (DTU)

To start DTU:

1. Click **Start** on the Windows taskbar and then select **Programs** from the *Start* menu.
2. Click **TradingExpert Pro** on the *Programs* menu to display the TradingExpert Pro program group.
3. Click on **Data Transfer Utility** to open DTU.

When the DTU window appears, click the **File** command on the menu bar to view a drop-down menu of the functions.
